## ▶ ABOUT FRAGRANCES

All Federico Mahora fragrances are genuine FM WORLD fragrances. They are made in Perfand near Wrocław, with which FM WORLD has been working from the very beginning of the existence of the company. A team of qualified specialists with long experience in the perfume industry ensures the quality of the fragrances.

## ▶ FRAGRANCE

Fragrance determines the amount of fragrance composition in a product, and at the same time assigns it to the appropriate group (perfume, perfume waters, eaux de toilette, etc.). As a standard, FM WORLD offer includes two types of perfume products: perfumes for her and for him (with 20% of fragrance) and eaux de parfum (with 16% of fragrance). Some fragrances for her and most for him in the Luxury Collection are available as eau de parfum. Selected fragrances in the PURE line are also available in the INTENSE version with higher fragrance content: perfumes for him with 24% of fragrance and perfumes for her with as much as 30% of fragrance. Fragrances in the Youth Collection are eaux de toilette.

## ▶ FRAGRANCE FAMILIES

All Federico Mahora fragrances have been assigned to appropriate fragrance (olfactoric) families in accordance with the best perfume practice. Federico Mahora fragrance enthusiasts can choose from among energising and fresh citrus, sensual chypre, intense and enveloping oriental, light water, elegant woody, masculine fougère, and very feminine floral fragrances.

# FRAGRANCES

## F L O R A L

---

The floral fragrance family is the largest and most diverse group of scents. It is the essence of femininity expressed in fragrant roses, peony, jasmine oils, combined with the freshness of fruits or intensity of exotic spices. The floral fragrances family is divided into seven subfamilies: floral-fruit, floral-oriental, floral-water, floral-green, and floral-aldehyde, floral-citrus and floral-woody.

## O R I E N T A L

---

Oriental scents are sensual and seductive. These are compositions with warm and exotic colours. They contain sweet notes of vanilla, spicy aromas of cardamom, cinnamon and clear accents of incense and ambergris. The oriental group includes a few subgroups, including: floral, fruity, spicy and woody.

## C H Y P R E

---

Unique woody compositions, herb-soil patchouli aroma, aromatic bergamot oil, castoreum or cedar oil, these notes pump in the heart of chypre fragrances. The name of the group comes from the French name for Cyprus. Fragrances in this group have been divided into subfamilies, including chypre-fruit, chypre-woody, chypre-oriental and chypre-floral.

## C I T R U S

---

Fresh and juicy fruits – lime, lemon, orange and bergamot – create an extremely refreshing citrus group, providing invigorating experience and an incredible energy boost. Initially the fragrances from this group were created mainly for men but the group is now considered universal. Depending on the composition formula, the citrus fruit family is divided into four subgroups: lemon, mandarin, orange and fruity.

# FRAGRANCES

---

## W O O D Y

---

Warm and rich notes of sandalwood and guaiacum, patchouli oils, combined with a bit raw, yet refined aromas of cedar and vetiver create an elegant and sophisticated group of woody fragrances. The group of woody fragrances is divided into a few subfamilies, including floral, fruity and oriental.

## F O U G È R E

---

Fern and lavender complemented by oak moss, fresh herbs or coumarin, create an intriguing family of fougère fragrances. Its name is derived from French and means "fern". The history of this group dates back to the 19th century – it was then that the most well-known fragrance composition in this group was created: Fougère Royale. Due to its composition, this group is divided into subgroups dependent on the dominant note: lavender or fern.

## W A T E R

---

The group of water scents is one of the youngest fragrance families. Cool, invigorating notes of sea breeze, water flowers and grasses, complemented by hints of green or metallic are dominant in this family. They envelop your body with light shimmering mist.

# PURE

PURE is a line of perfumes with 20% fragrance, locked in elegant 50 ml bottles. It's an aromatic gallery featuring as many as 85 compositions, each of which offers a range of fragrance notes.

## **GOLDEN FOAM SELF-TANNER – FAIR SKIN**

GOLDEN FOAM SELF-TANNER – FAIR SKIN

### **Worth knowing:**

- lets you achieve a sun tan effect after the first use
- gives the skin a delicate golden colour which gets more intense in 3-5 hours
- with a velvety formula, the Self-Tanner distributes perfectly and minimizes the formation of stains and streaks
- very efficient
- nourishes the skin
- the tan lasts up to several days

**Capacity:** 150 ml

**Directions:** Apply a small amount of the Tanner to the palms of your hands (e.g. 2-3 doses per leg) and spread evenly on a selected part of the body. Repeat to boost the effect. Wash your hands thoroughly after application. The result and its durability depend on the natural skin colour, the amount of Self-Tanner used and the reaction of the skin to bronzing products.

**Ingredients:** Aqua (Water), Betaine, Glycerin, Dihydroxyacetone, Trehalose, Caramel, Coco Glucoside, Lactic Acid, Polysorbate 20, Sodium Cocoyl Alaninate, PEG-40 Hydrogenated Castor Oil, Deceth-7, PPG-26 Buteth-26, DMDM Hydantoin, Methylparaben, Parfum (Fragrance), Butylphenyl Methylpropional, Limonene, Linalool

Before you apply the Self-Tanner, it is recommended to exfoliate your skin or moisturize it with body lotion, especially the knee and elbow areas, to avoid a darker colour. It is advisable to use a smaller amount of the Tanner on the knees and elbows.

Before the first use perform a test on a small area of the skin (the inner side of the forearm), by waiting about 3-5 hours. For external use only. Avoid contact with eyes and mucous membranes. If in eyes: wash with plenty of water. The product does not contain SPF filters and does not protect against sunburn.

# HELLO HONEY

Wonderful properties of honey have been known since the earliest times. One of the most exceptional women in history – Cleopatra – regularly took baths with honey, in order to preserve her beauty for many years.

We also drew from nature, took what's best in honey – the very extract – and combined it with nourishing ingredients to let you enjoy the sweet bathing ritual.

We're presenting the Hello Honey series, whose beneficial properties come from the honey's wealth of simple sugars, minerals, vitamins, enzymes and organic acids.

## BATH POWDER

**Ingredients:** Sucrose, Helianthus Annuus Seed Oil, Caprylic/ Capric Triglyceride, Butyrospermum Parkii Butter, Prunus Amygdalus Dulcis Oil, Silica, Parfum, Propylene Glycol, Mel Extract, Argania Spinosa Kernel Oil, Benzyl Salicylate, Hexyl Cinnamal, Butylphenyl Methylpropional, Alpha-Isomethyl Ionone, Hydroxyisohexyl 3-Cyclohexene Carboxaldehyde, BHT, CI 77492

### Did you know...

The skin renewal process takes about a month – at the time it gets rid of dead skin cells. If these are not exfoliated, they hinder the oxygenation of the skin and absorption of nutrients, the skin becomes grey, matte and ages faster. Take care of the condition of your skin, and exfoliate it regularly. Purified skin produces collagen and elastin more intensely. It becomes more firm, better supplied with blood as well as better absorbs active ingredients of cosmetics.
